

THE BLAIRMORE ENTERPRISE

VOL. XVIII., NO. 43.

THE BLAIRMORE ENTERPRISE, THURSDAY, AUGUST 18, 1927.

\$2.00 PER ANNUM

A Genuine Diamond— The most highly prized of all precious stones

Always admired and treasured since they were first found—they are more highly valued today than ever before.

Come in and inspect our diamond rings—you will be surprised at their beauty, perfection and quality.

We have a wonderful selection—both for men and women.

S. TRONO
Watchmaker and Jeweler
Blairmore - Alberta

GRUEN WATCHES

Mr. S. Trono, the local watchmaker and jeweler, has secured the sole agency for the famous Gruen Watches, manufactured by the Gruen Watch Makers' Guild at Cincinnati, Ohio, and has on display the various products of that company, including wristlets, bracelets, watches, diamonds, etc.

Gruen's are without a doubt the finest on the market today and you are invited to call and see the display at Trono's.

Born, on Friday morning last, to Mr. and Mrs. John Spence, a daughter.

DEATH OF JAMES G. EWAN

Word was received from Victoria yesterday to the effect that Mr. James G. Ewan had died there that morning.

No particulars were given, other than he had passed away in a hospital there.

Mr. Ewan is survived by a wife and two children. He formerly resided in Blairmore and owns some property here. He served as mayor of the town for a term of four years, being succeeded by Mayor McLeod.

Mr. W. Oakes and children are visiting with Mr. and Mrs. T. Baxter at Kimberley.

August 18th to 25th NABOB WEEK

AT OUR TWO STORES

WE OFFER YOU THE FOLLOWING SPECIAL

One Pound NABOB Tea or Coffee
One 25c size bot NABOB Vanilla or Lemon Extract
Two NABOB Jelly Powders, any flavor
ALL FOR 99c FIGURE YOUR SAVING

The word NABOB on any product means unexcelled Quality

With the purchase of any NABOB product we will give you a NABOB CAP FREE for the boy

WEEK-END VALUES

LUNDERBECK CONCERT AND DANCE SUCCESSFUL

The programme of a very pleasant concert given under the auspices of the Lunderbeck Women's Institute in the community hall at Lundbreck on Friday evening last (August 12th) opened with a musical recitation, "The Song My Paddle Sings," by Pauline Johnson, given by Miss Nola Nelson accompanied by Miss Margaret Madden.

Miss Pat. Smith gave a quaint rendering of "Little Sammy Green."

A violin solo, "Melodie," followed by "Mosquito Waltz," was played by little Miss Verdon Leigh, of Cowley.

Miss Frances Smith, winner in election at the Crows' Nest Pass musical festival, gave "41" by Kipling, and "The Canadian Born," by Pauline Johnson.

Miss Rhona Grove played very cleverly on the violin, "Adoration," by Felix Borowski, and "Alla Zinghera," by Agnes Tschetchalin.

Mr. T. Williams completed the first part of the programme with a violin solo, playing "Rustic Melody" and "Humoresque."

Then followed a pageant, "Famous Women of Canada." Florence Cook, taking the part of Miss Canada; Madame Marie Hebert, Miss Kathleen Smith; Madeline de Vecheux; Miss Doris Walters; Molly Brant, the Indian girl, Miss Ellen Nelson; Laura Secord, Miss Janet Roberts; Red Cross Nurses, Misses Beattie Smith and Elsie Bent, and the Homesteaders' Wife, Miss Molly Gunn. The Heraldesses were Misses Margaret Madden and Nola Nelson.

Miss Edith Cole, of Bellevue, assisted by Miss Peggy Cole and an orchestra under the leadership of Mr. Salt, took charge of the second part of the programme, putting on a playlet, "The Lost Train," and several character sketches and songs, including "Pie-a-ninny Lullaby" and "Grandmother's Patchwork Quilt." The representation of an Indian maiden in "Indian Dawn" was particularly delightful, also the Sailor's Dance.

Several of Miss Cole's little pupils also assisted with the programme, Miss Dorothy Costick giving with charming quaintness "A Visit to Grandma," Miss Elsie Brooks impersonating "Her Small Brother," and Miss Marjorie Key in the character of a downy yellow chick, dancing the Charleston.

The concert was followed by a dance.

ROAD GRADING CONTRACTS AWARDED

Four new road grading contracts have been awarded by the department of public works to cover the balance of the work mapped out for the season in the southern part of the province. Seven miles on the Drumheller-Munson road will be graded by Fred Munnix, while two sections of the Macleod-Montana road forming links in the trunk line north and south from Edmonton to the international boundary have been awarded as follows: Macleod to Standoff, 15½ miles, to W. A. Forman, of Provost; Standoff to Cardston, 23 miles through the Blood Indian Reserve, to Russell & McLeod, Lethbridge.

Eleven miles between Waterton Lakes and Mountain View, the first half of the new road into the Waterton park area, will be graded by the Commercial Cartage Co., of Calgary. This road will follow the revised route across the southwestern part of the province, using the original trail for some miles and in other places following easier grades to reach the same point.

Andy Waugh says the "Cow-Heep" fly isn't worth a darn in the North West branch of the North Fork river.

CONTRACT LET FOR CRIBBING LYON CREEK

At Monday night's meeting of the town council, the tender of Sartoris & Biell for cribbing about 250 feet of Lyon Creek, south of Dearborn Street, and erecting a small traffic bridge, was accepted, the work to be commenced at once. The tender price was \$450.

A contract was also let with Mr. S. Ernis for the grading and gravel surfacing of Victoria Street between the Royal Bank and Green's corner.

The hearing of Mr. F. Wright on various matters affecting the town was adjourned till next meeting.

L. M. SLYE KILLED IN MOTOR ACCIDENT

Word reached Blairmore on Wednesday morning that Mr. L. M. Slys, traveller for P. Burns & Co. in the Cranbrook territory, had been instantly killed in a motor accident, while Mr. Sang, manager of the Crystal Dairy at Cranbrook, travelling with him, was so badly injured that little hope for his recovery is entertained.

The accident happened on Tuesday about 11 p.m. at a point on the road ten miles west of Creston, known as Washout Creek, where a stone had rolled onto the centre of the road. The four-wheel brakes, being applied, the car turned turtle over an embankment and was found about one hundred feet below. The dead body of Slys was located down the embankment some seventy-five feet. Charlie Sang was rushed to the Cranbrook hospital, where it was found he was suffering from a broken pelvis bone and punctured bladder. R. S. Beavan, a Creston paragonman and third party in the car, leaped to safety, but sustained some slight cuts and bruises.

Mr. Slys was very well known in this territory, having for years drummed business for P. Burns & Co. before being transferred to Cranbrook. He is survived by a wife and six children, residing in Cranbrook.

Funeral, we are informed, will be held on Sunday.

BELLEVUE FLOWER SHOW AND SPORTS, SEPTEMBER 5th

Bills are being executed from the job department of The Blairmore Enterprise, announcing the tenth annual exhibition and sports of the Bellevue and District Horticultural, Industrial and Poultry Society, which takes place at the Bellevue Arena on Labor Day, Monday, September 5th, starting with a mammoth parade at 10 a.m.

There is every reason to expect the best display of flowers, vegetables, etc., in the history of the society.

In addition to the exhibition and sports, a three-day carnival is being staged under the auspices of the Bellevue Branch of the Canadian Legion, British Empire Service League, on September the 5th, 6th and 7th. Also the annual competitions of the Crows' Nest Branch of the Alberta First Aid Association from 10 a.m. on Labor day.

A grand dance will conclude the programme of Labor Day on the new floor in the arena.

The second annual five-mile marathon starts at 12:30 noon, to finish at the arena door.

Sergt. Duncan, O. C. at the local barracks of the Alberta Provincial Police, is a visitor to Lethbridge this week. In his absence, Const. Munton is in charge of the detachment.

The Bellevue Bakery is now delivering "Mother's Bread" in Hillcrest, Bellevue, Frank, Blairmore, Coleman, Crows' Nest, Michel, Natal, Fernie, and we understand New York is even making a bid for the product of this institution.

A business man writes us:

"My Wife Handles the Money"

"SHE can do it better than I. Each pay day she always deposits our Savings first. We never buy anything unless we have the cash to pay for it, and each year our Savings are growing."

You, too, can pay your bills and save. Our Budget Book will help you plan your income. Ask for a copy.

TEACHERS' FEDERATION NOW DOMINION WIDE

TORONTO, Aug. 16.—Dominion to the upper Highwood from this wide in its scope for the first time, the Canadian Teachers' Federation opened its eighth annual convention at the University of Toronto Monday. With the recent addition of the Nova Scotia Teachers' Union, the membership is now representative to a large degree of the teachers of the Dominion, with more than 21,000 enrolled.

Monday's sessions were largely devoted to the hearing of reports from the provinces. The attendance discussion was the legality of dismissal by school boards without valid reason from the teacher's point of view. The delegates from British Columbia took an active part in this discussion, for they have been very active in the far west in such matters.

FISH IN A WRECK

The fish hatchery truck, on its way to the upper Highwood from this Banff hatcheries to plant fingerlings or small fish in the tributaries of the river, came to grief on the Ing's grade last week end during one of the bad-weather spells of the trail. The truck was carrying four large cans of the fish and went over the bank, completely turning over at least five times, and spilling two of the cans of fish; the other two remaining intact. The two men in charge luckily escaped without serious injury. The car was so badly damaged that they could not proceed further with it and in order to save the other two cans of the plantings, they emptied them into the main Highwood river. The men were taken back to High River and the disabled truck taken to the High River Motor Co. for repairs.—High River Times.

Trees In Western Canada

In the great nation-building work of settling the vast prairies of Western Canada, one obstacle to overcome with many intending settlers, especially from Ontario and other countries where woods and forests prevailed, was the lack of trees. To those accustomed to living in a tree country, the bare prairies with their unbroken stretches as far and farther than the eye could reach, presented a barren, uninviting appearance. There was not only a lack of that restfulness and beauty which trees provide, but an absence of protection from the elements when high winds prevailed, the snows drifted, and blizzards occasionally blew.

During the earlier days in the settlement of the West, many home seekers travelled long distances from the area traversed by the railway to find locations in districts where there were trees because, what they wanted, was not a mere temporary place where they could "mine" the soil for a time, make some ready money quickly, and then get out, but a new and permanent home for their children where they would have a better opportunity in life than in the lands from which they had come. They put up with inconvenient locations from their isolated locations solely because they preferred the wooded districts to the open, seemingly unattractive prairies.

In those early days, however, thousands of people came and took up homesteads who had no intention of establishing permanent homes. They were speculators, more or less indifferent to their surroundings, concerned only with the making of money as rapidly as possible. They were quite frank in admitting they had no thought of making the West their home, the remainder of their lives, but that, on the contrary, they were using it as a half-way house, a stepping stone to some other and better place. Many came with the idea of making money which they could not accumulate in their old Eastern homes and then returning there to live and ultimately die.

Some years ago the fact was borne into the minds of the Federal Government that the problem of peopling the West was not so much one of immigration as of colonization; not so much the obtaining of settlers as the retaining of them once they had come. In a word, the real problem was how to get people to regard the West as a place of permanent residence; how to get people to establish homes rather than mere dwelling places.

It came to be realized that a farm house, stables and barns set down in the midst of a flat prairie, utterly lacking in anything approaching beauty of location and surroundings, could never appeal as a "home," and could never inspire in the minds and hearts of children that affection which the parents still retained for the old homes they had left. And it was realized that what was needed to convert these prairie dwelling places into real and permanent homes was "trees."

There was an impression abroad, however, that trees would not grow; if they would, why was not the prairie country covered with them as was the case in other lands of vast virgin areas. But this was not a convincing answer, and it was argued that if trees would grow elsewhere, they would grow on the rich, fertile plains of the West. And, always, some enterprising settlers soon proved that this was so.

The problem of getting trees, getting them in large numbers and cheaply, because these early settlers had little money to spend, and just the right way to plant and cultivate them, all existed. Then the Dominion Government inaugurated one of the finest of its many splendid services for agriculture when it established forestry farms in the West.

These farms have worked a veritable revolution in the appearance of this Western country. Established, as they were, on the bare prairie, in a few years they were converted into miniature forests. From them have gone forth millions of trees, distributed free of charge to farmers all over the West. Experts have advised on tree culture, farmhands have been inspected, advice on planting given. Today, hundreds and thousands of Western farm dwellings have been transformed into homes of real attractiveness and beauty to which their owners and their children have become permanently attached and for which a real love is now manifested. Trees have proven a great and effective agent of colonization, while at the same time providing shelter for stock, protection for gardens, and a comfort to all when strong winter winds sweep across the land.

Prarie cities, towns and villages have caught the spirit and learned the lesson taught by these forestry farms, and formerly wholly unattractive places, as, for example, the capital city of Saskatchewan, whose nature failed to endow with any of her assets, have become places of real beauty which are a source of pride and delight to their residents, and of surprise and pleasure to visitors from afar.

The Federal Government is deserving of all praise for its forestry farms and tree planting policy, and to an ever increasing extent it is to be hoped the people of Western Canada will second the efforts of the Government and even more energetically prosecute the work of surrounding their homes with trees.

Flowers Made Of Rubber

Reproductions Are Very Realistic and Will Not Crush

Realistic reproductions of several different kinds of flowers are now being made from rubber by a patented process. They are colored in natural tints, a drop of perfume may be added to heighten the effect of genuine blossoms, and an additional feature is that the leaves and petals can be crushed or bent, one of the objections to cloth flowers. The rubber flowers may be quickly washed with soap and water and are so arranged that they may be opened or closed to represent fully blown blossoms or buds.

Wedded To A Tree

Blind Girl In India Is Tragic Figure

A blind girl of twelve gropes her way with extended hand at dusk each night to a sacred tree at Bardoli, India, and puts her arms around it, crying softly over the trunk of her tree. The tree is her husband under Hindu law and she can never have another. When she was six years old the child had smallpox. Her face was disfigured and she was blinded. Her father, deciding no man would ever want to marry her, and not desiring to suffer the stigma of having an unmarried daughter, had her married with full Hindu rites, to this tree. There was a formal wedding feast to celebrate the event.

Wins Premier Prize

The Shorthorn bull, King of the Fairies, recently sold from the Canadian ranch of H. R. H. the Prince of Wales to a United States breeder, and won the premier prize at the Calgary Exhibition. The "King" son, Prince of the Fairies, however, lost out and had to veil his crest to Coyote White Ensign, belonging to T. A. Russell, of Toronto.

In a recent month nearly 80,000 pairs of leather slippers were sent from this to other countries.

New Use For Alarm Clocks

Warn Topoka Business Men Of Time Limit For Parking

The alarm clock, faithful servant of the American home, now is employed as a warning that the business man's automobile has been parked long enough and that it's time to move on.

With a two-hour parking limit in the business section of Topoka, Kansas, business hours have installed alarm clocks in their offices. At the end of two hours the alarm rings. A man gets up, hurries out and moves all the automobiles belonging to employees. The alarm is set ahead two hours and the performance repeated. So it goes through the day.

Paint a Corn With This Marvel Liquid

The pain stops in a few seconds. Tight shoes won't hurt anymore. The Corn shrivels up, and drops off. Removes the whole corn and doesn't pain a bit. It's the sure remedy—Putnam's Corn Extractor. All druggists sell Putnam's Corn Extractor. Get your bottle today. Refuse a substitute for Putnam's.

Make Presentation

Seed Growers' Association Honors L. H. Newman At Ottawa

On the occasion of the recent conference of branch farm superintendents, at the central experimental farm, Ottawa, one of the most pleasing events was the presentation to L. H. Newman by his former employers, the Canadian Seed Growers' Association.

E. S. Archibald, director of Dominion experimental farms, presided and Dr. H. W. R. Motherwell, one of the Canadian Seed Growers' Association made the presentation, consisting of a suitably engraved gold chain and pendant, with a most appropriately illuminated address.

WEAK AND NERVOUS

The Condition Of a P. E. I. Lady Who Again Rejoices In Good Health

"I can most heartily recommend Dr. Williams' Pink Pills to all weak people," says Mrs. Augustin Arsenault, Wellington Station, P.E.I. "Before I began their use I was very weak and nervous. I had always worked hard, with no thought of my health, until suddenly my strength left me. I began to feel tired and depressed, and did not sleep well at night, feeling just as tired in the morning as when I went to bed at night. I began to feel discouraged when I would think of the work necessary for me to do. I got some medicine from the doctor whom I consulted, but it did not appear to do me any case as I had not improvement while taking it. Then a neighbor advised me to try Dr. Williams' Pink Pills and I got a supply of this medicine. I very soon found they were helping me, and I continued their use until I was well again and I have been strong and well ever since."

Dr. Williams' Pink Pills do one thing—and do it well. They build up, purify and enrich the blood, and as the blood supplies the whole body, new life is given to the entire system. Better sleep, steady nerves, improved appetite, increased vitality—these can be yours by taking Dr. Williams' Pink Pills. Begin today. Sold by all medicine dealers or, if mailed, per box at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Leaves Valuable Estate

An estate provisionally valued at £104,612 gross, was left by the fifth Marquis of Lansdowne, former governor-general of Canada, who died at Chiswick, London, June 1. He was known by his title recently. The widow and the present marquis are the beneficiaries.

There may be other corn removers, but you will not be completely satisfied until you have used Holloway's Corn Remover.

Growing Tobacco In B.C.

Experimental crops of tobacco are being grown on 65 acres of land at Oliver, B.C. Fifty acres have already been planted to the satisfaction of Mr. McVittie, of the B.C. Tobacco Board. Good progress has been made and the prospect is promising.

More buildings were started in Canada in the first four months of this year than in the same period of the past seven years.

Campers.

A reliable first-aid remedy in the woods, for burns, bruises, cuts and wounds.

MINARD'S
"KING OF PAIN"

Former Premier David Lloyd George has promised that he will visit the United States in 1928 to meet American Wellington and probably the International Exhibition, says a despatch to The Westminster Gazette from Llangollen, Wales.

Speed Hard To Imagine

Expects English Racing Plane Will Travel 300 Miles An Hour

Some weeks ago an English army officer, in a speed test on a Florida beach, drove his car at a speed of 207 miles an hour. This is the greatest rate of travel ever made in any sort of machine driven on land or sea. But it is reported that an airplane has been made in England for a forthcoming race which can develop a speed of 300 miles an hour.

It is not easy to realize what it would mean to travel at such a rate of speed. The fastest express trains rarely go faster than sixty or seventy miles an hour. Three hundred miles an hour is a speed greater than the average velocity developed by a hurricane being falling from a great height. The French aviator Jean van Loe, flying over Beaumont-sur-Oise, got into difficulties at an altitude of more than four miles, and jumped with his parachute from the machine. The parachute did not open until he was only 200 feet from the ground, but in time to save his life. From the moment he jumped until the moment the parachute opened he fell four miles in about twenty seconds. This is at the average rate of 206 miles an hour. And the mystery plane, will, it is said, be capable of a speed 50 per cent greater than that!

The Many-Purpose Oil. — Built in the house and stable there are scores of uses for Dr. Thomas' Electric Oil. It is for cuts, bruises, burns, scalds, the pains of rheumatism and sciatica, sore throat and chest. Horses are liable very largely to similar ailments and misgives an affliction, and are equally amenable to the healing influence of this fine old remedy which has made thousands of firm friends during the past fifty years.

Will Protect Fur Industry

Tax On Pelts Taken In Northwest Territories Effective January 1, 1929

The act imposing a tax on furs taken in the Northwest Territories, which will come into operation on January 1st, 1929, according to an announcement by the Hon. Charles Stewart, Minister of the Interior.

The tax in these territories was imposed by the Dominion in order to place them on the same basis as the various provinces, with the exception of Prince Edward Island, impose a tax on furs to aid provincial revenues. The tax will be on the same basis per pelts as in the prairie provinces and British Columbia, and will tend to prevent smuggling of furs from these provinces into the Territories for sale.

It is expected also that conservation of fur-bearers will be promoted by the new law in several ways. Pelts will be required to ship out furs and, in order to prevent the smuggling of valuable small pelts in shipments of nontaxable furs such as wolf skins, all pelts will be examined and stamped.

This it is believed will check the pernicious practice of taking unprime furs, that is, furs of animals killed when not in prime winter condition. Furthermore, this examination will place the fur trade on a more business basis by districts, and provide data which will be of value from a conservation standpoint.

Sweet and substantial — Mother Goose's Entomologist is as acceptable to children, and it does its work surely and promptly.

Waterpower Resources

The official information available at a central source regarding the waterpower resources of Canada, as to capacity, and availability is most complete. The Index Inventory System of investigating and recording waterpower resources, originated by the Dominion Water Power Branch of the Department of the Interior and developed and carried out in full collaboration with the provincial governments, has resulted in all possible information on this subject respecting any river or district being available at the head office in Ottawa for any interests concerned.

Minard's Liniment for cuts and bruises.

A Queer Society

One of the queer societies of Oxford University is the "Upside Down Club." Three times a year its members go through a day doing everything backwards, boning evening dress in the morning, they start with cigars and port as a prelude to a reversed dinner, ending with hors d'oeuvres. So on through the day, until they eat breakfast and retire.

To Visit U.S.

Former Premier David Lloyd George has promised that he will visit the United States in 1928 to meet American Wellington and probably the International Exhibition, says a despatch to The Westminster Gazette from Llangollen, Wales.

WHEN USING WILSON'S FLY PADS READ DIRECTIONS CAREFULLY AND FOLLOW THEM EXACTLY

There is only one way to kill all the Flies

This is it—Darken the room as much as possible, close the windows, raise one of the blinds where the sun shines in, about eight inches, place as many Wilson's Fly Pads as possible on plates (properly wetted with water but not flooded) on the window ledge where the light is strong, leave the room closed for two or three hours, then sweep up the flies and burn them. See illustration below.

Put the plates away out of the reach of children until re-qualified in another room.

The right way to use Wilson's Fly Pads

Historic Memorials

Massive Fortress Of Fort Lennox On The Richelieu River

Among the historic memorials of Canada that have been from time to time placed under the care of the Canadian National Parks Branch of the Department of the Interior there is none richer in historic interest or more charmingly situated than the massive old fortress, Fort Lennox, that stands in quiet dignity on the southern end of Ile aux Noix in the Richelieu river, in the province of Quebec. This fortress was erected by the British military authorities in the early part of the nineteenth century and since its abandonment a military post in 1869 has been visited by increasing numbers of tourists each year.

Miller's Worm Powders, being in demand everywhere, can be got at any chemist's or drug shop, at very small cost. They are a reliable remedy for worms' troubles and can be fully relied upon to expel worms from the system and abate the sufferings that worms cause. There are many mothers that rejoice that they found available so effective a remedy for the relief of their children.

Greeks Reduce Army Strength

Good Augury For Most Disturbed Corner Of Europe

The Greeks are getting rid of a whole Army Corps. Their present strength is 8,500 officers, and 80,000 other ranks. The disbandment to be effected will reduce this figure by over 18,000 men, which means nine infantry regiments, one field and one heavy artillery and one engineer regiment. This is good augury for the most disturbed corner of Europe. The Portuguese are disbanding three infantry regiments, three light infantry, and two cavalry regiments.

A kiss causes palpitation of the heart and shortens life three minutes, students in Western State College in Colorado have discovered. Thus 450 kisses would eliminate a full day of one's life.

For corns and bunions use Minard's Liniment.

Mirring husbands in Central Africa are fed a lizard porridge by their wives, who have a firm belief that the homing instinct of the lizard will be transmitted to their men.

BAYER

Genuine ASPIRIN

Proved safe by millions and prescribed by physicians for

Colds Headache Neuritis Lumbago
Pain Neuralgia Toothache Rheumatism

DOES NOT AFFECT THE HEART

Safe

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 10 tablets also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacturing of Monheim-on-Rhine, Germany. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the following is the Bayer Company's mark: A stylized cross, the Bayer Company's mark, will be stamped with their general trade mark, the "Bayer Cross."

POLITICAL UPSET NOW PREDICTED IN FREE STATE

Dublin.—The recent assassination of Kevin O'Higgins, vice-president of the Free State Council, and the measures which President Cosgrave's Government adopted in the face of that murder, have had surprising and unforeseen consequences which observers say threaten to upset the Cosgrave Government and completely revolutionize the political situation in the Irish Free State.

Among the Government's measures was one to compel all candidates at elections to take the oath of allegiance to the British Crown before going to the polls. This measure was expected to split the Flannas, the Republican party headed by Eamon de Valera, whose members had steadfastly refused to take any such oath, instead, this Government more would Flannas fall into a determination to subscribe to the oath.

This decision resulted in 15 Republican deputies, including de Valera himself, taking the oath and assuming their seats in the Dail for the first time. The Republicans previously had let it be known that the taking of the oath was an empty formality, so far as they were concerned, as they made it with the mental reservation that they subscribed allegiance only to the Irish nation.

The advent of the Republican deputies into the Dail gives the opposition parties just enough votes to upset the Government. It is stated that the three opposition parties—the Republicans, headed by de Valera, the National League, headed by the chief in Captain William Redmond, and the Laborites, who are led by Tom Johnson—have agreed to work together and that a future policy will be arranged between them. It was said, however, that it was not expected any Republican party would take office if a new Government was formed.

Epidemic in England Is Causing Anxiety

Cause of Illness Among Children Cannot Be Determined

Bath, Eng.—An epidemic that is supposed to have resulted largely from the consumption of tainted ice cream, has affected more than 200 people in Bath, Somerset, and the surrounding district. There is a great deal of anxiety over the outbreak, more particularly as a number of people who have not eaten the supposed tainted ice cream, are ill from some mysterious cause.

The majority of those who are ill are children.

One child has died from convulsions caused by the unknown irritant.

Manitoba Crop Report

Wheat Cutting To Begin At The End Of August

Winnipeg.—The western portion of the province of Manitoba has a good crop generally, but the eastern part, with some satisfactory exceptions, has a much poorer return, according to a crop report issued by the provincial Department of Agriculture.

Practically no damage had been done by frost, the report states, and hail damage has been light.

Wheat cutting in Manitoba is expected to begin about the end of August. The durum variety of wheat predominates in Southern Manitoba this year, little Marquis wheat being sown.

In the Morden-Morris-Emerson area there is an odd field of wheat out and despite the fact which has attacked the wheat there will be a fairly good yield.

Toronto Union Station Opened Toronto.—Toronto's "new" union station, which for eight years has laid idle, completed but unused because of difficulties surrounding the erection of a viaduct in connection with it, was opened to the general public, and the old station, which has served as a terminal for more than 50 years, was thrown into the discard. From now on all trains will be operated from the new station.

Can Supply Harvesters

Ottawa.—Officials in touch with the employment situation in Eastern Canada, do not anticipate that any difficulty will be encountered in recruiting the army of harvesters which is to be transported to Western Canada to help the crops. Approximately 25,000 men will be needed from Eastern Canada for harvesting and this number should be readily available.

W. N. U. 1484

Agricultural Statistics

Number Of Occupied Farms in West Is Less Than In 1921

Ottawa.—The Dominion Bureau of Statistics has issued a preliminary report on the agricultural statistics of the provinces of Manitoba, Saskatchewan and Alberta, as shown by the quinquennial census taken in June, 1926.

The report showed a decrease in the number of occupied farms in all three provinces over the year 1921, when the last census was taken. The 1926 census showed 52,251 occupied farms in Manitoba as compared with 53,252 in 1921; 117,737 occupied farms in Saskatchewan as compared with 119,151, and 77,130 in Alberta as compared with 82,951.

Total acreages occupied on farms land with 1921 comparisons in brackets are shown as follows:

Manitoba, 14,411,537 (14,615,844); Saskatchewan, 46,944,956 (44,922,902);

Alberta, 28,572,331 (29,293,053).

Improved farm land was shown as: Manitoba, 8,346,021 (8,057,823); Saskatchewan, 27,714,045 (25,037,401); Alberta, 13,204,156 (11,768,942).

Crop Report Encouraging

Under Favorable Conditions Yield May Exceed First Estimates

Ottawa.—The crop report of the Dominion Bureau of Statistics, based on condition of all field crops throughout Canada is excellent. The condition of spring wheat is unusually expressed as 105 per cent. of the ten year average, representing an anticipated yield of 15.6 bushels per acre and a total forecast for all wheat of 357,367,000 bushels from 22,325,777 acres.

Last year, at the corresponding date, the condition of spring wheat was reported at 92 per cent., representing an average yield per acre of 13.5 bushels and the total forecast for all wheat was 315,940,000 bushels. The final estimate of yield for 1926 turned out to be 409,811,000 bushels.

Assuming that conditions this year remain favorable until time of harvesting, there appears to be grounds for expectation that the wheat crop may turn out to be more abundant than the forecast of 357,367,000 bushels now indicated by the condition at the end of July, the report says.

Air Derby Fliers Killed

Badly Burned When Plane Burst Into Flames After Crash

San Diego, Cal.—Lieutenant A. G. Covell and R. W. Waggoner, U.S. Navy, who left here in an aeroplane they had entered in the Dole flight to Honolulu, were killed when the aeroplane crashed into Point Loma, near here.

The plane was destroyed in less than 15 minutes after they had left for Oakland airport, where they intended to take off in the flight to Honolulu. The plane burst into flames after it struck Point Loma.

Covell's body was found in the cockpit of the plane and was charred beyond recognition. Identification was made from a wallet that was found in a pocket of his coat. Waggoner's body was later recovered from the wreckage, and also was badly burned. Waggoner is believed to have endeavored to jump clear of the plane as it fell, but was caught in the wreckage. The aviators had drawn number 13 in the race.

Police Watching Garibaldi

Liverpool.—Col. Riccio Garibaldi arrived from Havana, Cuba, on the liner Oroya. He was given a registered address by the police and asked to remain there but is allowed full liberty. Col. Garibaldi was arrested for complicity in the Catalonian conspiracy in November, 1926. The formal charge was that of possessing arms illegally and he with Col. Melia, was sentenced to two months' imprisonment and fined \$5.

Penalty For Starting Grass Fire

Sacramento, Cal.—State forestry officials have been notified of a novel sentence to a careless smoker, who was responsible for starting a grass fire in Tehama County. It was by Justice of the Peace E. F. Lennon and under a decree Fred Robinson, 35, a laborer, will be prohibited from smoking for one year. Robinson consented to take the pledge and saved himself a fine.

B.C. Peach Crop Damaged

Regina.—Wardens of 50 per cent crop failure of Washington and British Columbia peaches was issued by the manager of a wholesale fruit house, who attributed the condition to frost. It was estimated that from 200 to 300 carloads will be all that the Yakima and Okanagan valleys will produce this year, as against as many thousand last year.

Attempted To Sell Dye Trust Secrets

Formulae and Contract Found in Possession Of Three Employees In Germany

Hoescht, Germany.—Three employees of the German Dye Trust are alleged by the police to have been caught in an attempt to sell the manufacturing secrets of certain products to English interests.

The police say they found the formulae hidden in the men's socks. They also claim to have found a contract fixing the purchase price of the secrets at 900,000 marks (about \$207,000). The alleged contract also promised the air passage to England, natriumization there, and steady employment, with a share of the profits.

The law does not cover mere attempts of such nature, and the three men were released.

London To London

Airmen Selected

Captain Tully and Lieut. Medcalf Chosen To Make Flight

London.—Captain T. B. Tully, for the past several years superintendent of the Ontario Government air services, Sault Ste. Marie, with Lieut. James V. Medcalf, of the same service, have been chosen pilots for the London, Ont., to London, England, non-stop flight.

They signed their contracts with Charles Burns, donor of the \$25,000 prize for the flight, and left at once for Detroit to take charge of the Stinson Monoplane, scheduled to be completed and fully equipped with all navigation instruments in time for delivery in London, August 15.

The pilots hope to be ready for a take-off, if weather is favorable, within a week or so.

TWO RADICALS AGAIN GRANTED BRIEF REPRIEVE

State Prison, Charleston, Mass.—Nicola Sacco and Bartolomeo Vanzetti again have been given a new lease on life.

The radicals, condemned to execute their crime of murder committed seven years ago, in the electric chair, have been granted a reprieve to and including August 22.

This announcement was made by Prison Warden William Hendry, following receipt of formal papers which empowered him to take this action.

Many times before these two radicals, whose case has aroused international interest as one of the most remarkable murder cases in the history of jurisprudence, have been within a few hours of death. Then out of the night would come the word that the forces working day and night in their interests again had been successful in staying the upraised hand of the law poised to claim revenge for two lives snuffed out away back in April, 1920. Such was the case again. History was just repeating itself.

And this dramatic climax to one of the most amazing legal battles ever fought came after defence counsel had almost given up hope—when they were about ready to admit that "no human power" could again stave off the fatal moment.

The voice which has been heard around the world, raised in loud and continual protest against the execution of Sacco and Vanzetti, brought glad news also to Celestino Madeiro, sentenced to die with the radicals. This man, also convicted of murder, but his crime having no connection with that of the radicals, is included in the market respite. His name is almost unknown to the millions who raised their voices for Sacco and Vanzetti, yet he too benefited.

TWO PREMIERS MEET

Right Hon. Stanley Baldwin, Premier of Great Britain, and Rt. Hon. Wm. L. Mackenzie King, Premier of Canada.

TRADE OUTLOOK IN CANADA IS VERY FAVORABLE

Calgary.—That the general industrial transportation and agricultural outlook from reports reaching him from all parts of Canada was on the whole excellent and would further improve as the market for Canadian products was widened, was the statement made here by E. W. Beatty, K.C., chairman and president of the Canadian Pacific Railway.

"An important factor in the latter condition will be a steadily increasing population," he said. "The transportation companies of course, only reflect the general conditions of the country, and compared with last year, their gross earnings are higher but increased costs beyond their control have resulted in lower net earnings. The Canadian transportation companies are not yet being paid compensation for the important public services they are, I think, performing. As to agricultural conditions, a great deal will depend on the weather that will prevail during the next ten days or two weeks. If the conditions are favorable, another substantial contribution to the country's progress will be made."

"What are your impressions of the benefits Canada will derive from the concurrent visit of Their Royal Highnesses and Prime Minister Baldwin?" Mr. Beatty was asked.

"The benefits which Canada will derive cannot help but be very great and far-reaching," he said. "Canadians are always glad to see Their Royal Highnesses and to them, the Prince of Wales is almost as one of themselves. The unquestioned loyalty of our people needs no confirmation but we are particularly fortunate that on the occasion of the celebration of the diamond jubilee of Confederation representatives of the reigning house of Great Britain and the Prime Minister of that country were here to participate in it. The impressive character of the jubilee celebrations have had a pronounced effect on our people, particularly on the younger generation, and the realization of what this country has done cannot but improve the morale of our people and increase the strength of our growing national sentiment."

Settlers Under Group Plan Are Prospering

Progress Made During Summer Says Canadian Colonization Official

Winnipeg.—On his return from an inspection tour of the settlements made by the Canadian Colonization Association in the West, R. C. Duncan, assistant manager brings an account of good conditions.

Prospects in Alberta, Mr. Duncan says, are particularly bright. On the George Lane farm at Nanaka, colonized under the auspices of the association by 36 families, the settlers expect to pay off \$50,000 of their indebtedness this year, and have taken out extra hail insurance to protect their crop, which is the best in the history of that district.

Settlements made by the association in the Lethbridge district are so successful that it has been decided to increase them by 25 families this fall. One of the settlers has placed 120 acres in sugar beets, 59 acres in potatoes and 400 acres in wheat and other small grains, from which his returns this fall should be close to \$15,000. There are eight families now working for him.

The 14 families placed on the Bulman farm near Kelowna, in British Columbia, are doing well. Their onion crop has been harvested. A representative of the Canadian Colonization Association will be placed in the Okanagan Valley to look further into opportunity for group settlement there.

Mr. Duncan is leaving this week for Ontario to investigate settlement possibilities in the tobacco fields of Essex county, where a large number of families have been temporarily placed.

Airplane Race To Honolulu Postponed

Committee Finds Entries Not Properly Equipped Or Qualified

San Francisco, Cal.—Postponement of the \$35,000 Dole flight from San Francisco to Honolulu because the entries who have thus far presented themselves are not now properly equipped or qualified, was ordered today by the flight committee and the Department of Commerce, subject to the approval of the Honolulu chapter of the National Aeronautic Association.

The committee announced its decision after a meeting which lasted well into the early hours of the morning. The starting committee recommended the postponement of the start of the flight for a period not exceeding two weeks. It was further recommended that no additional entries be accepted for the postponed date.

Frustrate Conspiracy To Liberate Prisoners

Milwaukee Jailers Found Two Bars Saved Through

Milwaukee, Wis.—What county officials said was a conspiracy to liberate 62 prisoners in the county jail was frustrated when a jailer discovered that two bars of a first floor cell had been sawed nearly through and a third bar far enough so that work could have been completed within a few minutes.

Prisoners, questioned by Sheriff Charles Schellert, said a woman had supplied the saws; and that she was to have smuggled firearms so that prisoners might shoot their way out if necessary.

Prisoners, questioned by Sheriff Charles Schellert, said a woman had supplied the saws; and that she was to have smuggled firearms so that prisoners might shoot their way out if necessary.

FORT CHURCHILL TO BE TERMINUS OF THE H.B. ROAD

Nelson, Man.—Fort Churchill, the ancient port of the Hudson's Bay Company, which in the 18th century was a naval base and called Fort Prince of Wales, the picturesque ruins of which will stand, will be the terminus of the Hudson's Bay Railway.

Fort Churchill, situated at the mouth of the Churchill River, a great natural harbor, 477 miles from The Pas, Man., will be recommended to the Federal Government as the Hudson's Bay Railway port by Frederick Palmer, distinguished British engineer, who has just concluded a survey of both Fort Churchill and Port Nelson harbors.

Mr. Palmer, who will submit a preliminary report to the Federal Government during the present month announced his decision to recommend Fort Churchill.

"It is a natural harbor in which practically unlimited shipping accommodations can be provided in the shortest time and at a minimum of cost," declared Mr. Palmer. "It is almost incomparably superior to Nelson in suitability for construction and economy of time."

Following Mr. Palmer's announcement, Hon. Charles A. Dunning, Minister of Railways and Canals, stated that the Government would act immediately on the British engineer's recommendation.

"Nature has given us a wonderful harbor at Churchill and it is the policy of the Government to develop and make use of the whole Hudson's Bay route as quickly as possible," said Mr. Dunning.

The Federal Department of Railways will proceed immediately to push forward work at Churchill from the sea, and the Canadian National Railway, acting for the department, will complete construction of the remaining railroad link as speedily as possible, Mr. Dunning announced.

May Build More Cruisers

U.S. Plans To Construct Ten in Next Five Years

Washington, D.C.—While no official statement has been made, it is understood here that in proposing a cruiser tonnage of from 250,000 to 300,000 at Geneva the American Government figured upon a maximum of eighteen 10,000-ton cruisers for this country.

Eight such craft now have been contracted for and the other ten undoubtedly will be authorized by congress in the near future. The speed with which they are to be built probably was one of the subjects discussed by President Coolidge and Secretary Wilbur at Rapid City.

Naval opinion here now is that two of these craft should be laid down and eight of them completed by the end of the year. The construction over a five-year period. Eighteen 10,000-ton cruisers would total 180,000 tons which, added to the 75,000 tons in the ten light cruisers of the Memphis type, now in commission, would give the United States a total of 255,000 tons.

First Shipment of Wheat

The Most Amazing Quality in Chevrolet History

QUALITY in design. Quality in construction. Quality in appearance. Quality in performance. Never before has any low-priced car possessed them to such an amazing degree—because no other low-priced car combines the progressiveness of Chevrolet and the diversified experience, the vast resources and the matchless facilities of General Motors.

Study today's Chevrolet. Mark well the aristocratic beauty of its lines—the superbly executed details of its Fisher-built bodies. Then go for a ride. Revel in the thrilling sport when you "step on the gas". Delight in the smooth operation—the swift sweep of the passing miles. Marvel at the way the car hugs the road, the ease with which it obeys the steering wheel, the promptness with which it responds to the brakes.

Here is quality expressed in terms that millions now can understand and enjoy. Here is quality obtainable at New, Lower Prices, which reflect the savings of tremendous production and which demonstrate the willingness to share these savings with the public. . . . Here is a car of amazing quality . . . for everybody, everywhere.

CROWS' NEST PASS MOTORS

Phone 105 — Blaimore, Alberta

PRODUCT OF GENERAL MOTORS OF CANADA, LIMITED

Andy Waugh went camping up the North Fork last week. Before leaving he undertook to provide fuel for the car and on reaching the camp ground, sixty miles away, it was found that his fuel consisted of a small sack of oats. Andy was obliged to walk eight miles to secure gasoline for the return trip Sunday.

At the intersection of Sixth Avenue and Victoria Street the other day, where traffic is at times dangerous, a newly arrived Frenchman was knocked down by a passing auto. Courteously and efficiently Chief Spence picked the Frenchman up, brushed off his clothes and passed him his hat. More or less bewildered, but profoundly grateful, the Frenchman exclaimed: "Parlez vous Français?" To this the chief replied: "No. Chevrolet coupe!"

Mr. and Mrs. E. T. Fitzsimmons, of Calgary, and Mr. and Mrs. Harry Fitzsimmons, of Lethbridge, recently attended the golden wedding anniversary celebration of their parents, Mr. and Mrs. H. Telford Fitzsimmons, at Victoria, B.C.

Coleman Miners' Hospital has been very fortunate in securing the services of Miss A. Hope Tully, of Winnipeg, as matron, in succession of Miss Mooney, who has returned for a rest to her home in Wawanesa, Manitoba, after eighteen months in charge of the hospital at Coleman. Miss Tully has a wide experience in nursing in various parts of Canada and was for ten years engaged in hospital work in Vancouver. She was also for a time engaged in nursing in the mining district of Northern Ontario.

Blaimore, Alta., Thur., Aug. 18, 1927

DOES HE BELIEVE IN ADVERTISING?

There was a man who said he did not believe in advertising. He is a married man.

When he was young and gay he had a sweetheart.

She became his wife.

He is happy now.

But why and how did he get her? He advertised.

Not in magazines or by joining a "Lonesome Club."

But he advertised just the same.

He "showed off" at parties; did stunts of physical skill where she could see.

His trousers were always pressed when he went a-courting.

His tie was of the latest hue and pattern.

He talked of big, brave things in her presence.

He told her of the little home they would acquire, and how it could be done on his salary.

By the time she answered "Yes," she knew who he was, where he was, and what he was worth financially and morally.

By his "advertising," her attention was directed to him, she knew all about him, and she was convinced of his value.

She simply "answered his ad."

Both are happy now, and both have profited by the transaction.

He simply "let her know what he had to offer."

Advertising is simply letting the world know what you have to offer. Newspaper advertising is the best way to do that.

Advertising in the home newspaper is the best particular way of doing it.

Coleman high and public schools will re-open on August 29th, following the summer vacation, under the principalship of D. Doyle, who succeeds R. G. Powell, the latter having been engaged on the staff of Central high school, Calgary. Mr. Powell, who was the exalted ruler of the Coleman Elks Lodge, was the recipient of a handsome presentation and address on the occasion of his resignation. Mrs. Powell is at present visiting relatives at Agassiz, B.C., and will shortly join her husband in Calgary.

ALMEE McPHERSON

For seven or eight months now our Canadian and American dailies have given a great deal of front-page space to the doings and sayings of Almee McPherston. We have scanned with considerable disgust pages of the nauseating details of every manner of crime, murders, triangle difficulties, etc., but we must confess that never have we been so completely sickened as we have been by the inevitable "Almee" stories, as we have them forced on us each day in our dailies' front columns. First of all it was Almee's kidnapping trial. Whether there was guilt or not, we think that the publicity which was accorded the Los Angeles evangelist and her temple of worship, not forgetting her Ma, will ever remain to stigmatize our generation with some form of curio-morbid degeneracy. We are here rather pardoning the news monger because if the average reader rebelled against such news it could not be capitalized as it now is. "Oh home, thou hast lost thy breed of noble bloods." Sorry commentary, indeed, in our day and generation. When shall we have a public protest to the regaling-to our reading public of such trash as the Almee McPherston stories? What man with a spark of manliness in his make-up does not find his blood boil when he finds in his family daily whole pages devoted to such utter boncombe as the incident of last week—the quarrel between "Almee" and "Ma"? Exasperating does not fully express it. We feel like crying out in our despair, "O tempora, O mores!" When shall we have an end of it?—Western Catholic.

SCHOLARSHIPS TO BE OFFERED BY DALZIEL

Young people with limited means, who are ambitious to improve their position in life by taking a business course, are to be given a rare opportunity to do so by the Dalziel Business College, of Calgary, which is offering twenty scholarships, ten at 25 per cent less than the usual fee and ten at full fee.

These scholarships are to be won in open competition, the entrance fee for which is 25 cents. Entering the competition does not obligate the candidate to take the business course, but all who win the scholarships must be ready to enter the college not later than September 1st, 1927.

A short test paper will be submitted to each candidate, covering questions of an elementary nature, which the management says every reader should be able to answer.

The examination will be conducted at the Dalziel Business College, 114 Seventh Avenue East, Calgary, and the decision of the principal shall be deemed final.

The closing date for entries is August 22nd and examinations will be conducted every day from the 22nd to the 31st.

PULLS OFF SHOES TO START AUTO

In the olden days poor Lo was able to pull off his shoes and get out of the way of the pale face, but when John Zachariah stopped traffic with his truck at one of the main street intersections in Spokane yesterday, he pulled off his shoes, but the old gas bus would not start and John is in the county jail as an alleged drunk. John drove down Riverside to the intersection at Monroe and Main. Sheriff Brower came along and found traffic halted. John, shoeless, was fumbling with the car levers.

On the side of the truck was a sign, "Shitless, but not lazy."

"Sheriff, you would not arrest me, would you? I am a \$40 a week man. I have a contract for hauling wheat at Riverville. I am from Tekoa," argued the Indian.

Sheriff Brower said he found that moonshine and the sunshine had the better of the Indian.

The sheriff says he hopes that the Indian will soon be able to get back to his contract.

The city of Lethbridge is just one ahead of Blaimore, since the mayor here a few days ago for a motor trip is provided with an auto and gas.

Marshall Hamilton and family left here a few days ago for a motor trip to Banff, via Windermere.

BLAIRMORE UNITED CHURCH

Rev. J. W. Smith, Pastor

Serve the Church that the Church may serve you.

Services Sunday, August 21st, the Pastor in charge.

MORNING SCHOOL at 11 o'clock. The subject for the Young People's Class will be: "Preaching Good News to a World."

AFTERNOON SCHOOL at 2 o'clock, for boys and girls under 12 years. After the lesson Mr. Smith will show you the passenger and freight train of Old China.

EVENING WORSHIP at 7.30. The Junior Choir will render another of their beautiful anthems. There is nothing sweeter than children's voices lifted up in praise. The hymn story will be on: "Abide With Me," by Henry Francis Lyte. This is the fifth of this series of hymn stories. The subject for the evening will be: "A Lesson in Fence Building." Come early and bring your family and your visitors.

ANNOUNCEMENTS

Thursday, August 20th, at 7 o'clock. Junior choir practice. After the practice, the senior choir will entertain the members of the junior choir. Let everybody be there Thursday night.

The senior choir has arranged to serve tea on Saturday, September 3, from 3 o'clock to 6. Plan to have your tea with the choir that day, and the men are invited to present their wives with enough home baking to last the week end. The choir hope to raise enough money to clear off the debt on the organ. Further details will be given next week.

THINK TH'S OVER

Laughing, like singing, acts as a safety valve to the overcharged soul. But the beauty about these safety valves is that they are effective for those who do not hear as well as those who do. The following poem by an unknown writer is well worth thinking over.

LAUGH AND BE JOLLY

Did you ever meet Laugh-and-be-Jolly?

If you haven't, I wish you had. To look at his face in the gloomiest place

Will make any murriner glad. He is chubby with romping and laughter.

He is crinkled with humor and fun; To stay melancholy with Laugh-and-be-Jolly

Is to do what nobody has done. When the heavens are drizzling and drippy

It's a mercy to have him about; For he chuckles away on the dreariest day

Till he looks like the sun coming out. Knock him down, he is up with a scramble;

Ignore him, he smiles all the same; Call him frisky or simple, he just shows a dimple

That puts any cross-patch to shame. Take your grumps and growls and your grouches.

And carry them all to this elf; He will show you his way, and make you some day

A Laugh-and-be-Jolly yourself.

On the east side of the Salton Sea, in the Colorado desert, jets of live steam issue from holes in the ground and are used by campers to cook their food.

The directorate of the Consolidated Mining & Smelting Co., Limited, is to be congratulated on the policy which it has espoused of using the great wealth derived from its operation of the Sullivan mine to promote the development of the mineral resources of Canada from the Atlantic to the Pacific. By this policy Consolidated Mining & Smelting is rendering to great national service. It will do for Canada what American Smelting & Refining has done for the United States. Closely allied as it is financially with the Canadian Pacific Railway, the two companies can work together not only to mutual advantage but for the development and prosperity of the Dominion as a whole. Consolidated management is now active in Nova Scotia, New Brunswick, Quebec, Ontario, Manitoba, Mackenzie Territory, British Columbia and Yukon Territory. That is a great field to cover; every unit of which has resources capable of important economic utilization—Mining & Industrial Record.

COWLEY HAPPENINGS

Another heavy rain fell here on Tuesday night.

Mr. Joe Wilson returned by motor from an extended trip to Armstrong, B. C.

James Leigh made a flying trip to Calgary on Sunday by motor, returning the same day.

Mrs. Christie, accompanied by her sister, Miss Slidders, has gone to Banff for a holiday.

D. O. McKay, the hall insurance adjuster, is in the district looking over the damaged crops.

Mrs. McLagan and children, of Vulcan, are visiting Mr. and Mrs. George Ritson at present.

Mr. and Mrs. B. O. Morrow and daughter, of Lethbridge, spent the week end here renewing old acquaintances.

Mrs. Harvey Bouthillier is visiting her sister in St. Paul, Minnesota, where she intends staying for a few weeks.

Word has been received that Mr. Josiah Kean, who used to run the store now owned by Mrs. Christie, died at his home in Guelph, Ontario.

Mr. and Mrs. George Buchanan, of Vancouver, accompanied by their daughter, Mrs. McKelvy, have arrived safely at the ranch, having made the trip by motor.

CAIRN MARKS SITE OF OLD FORTS

Commemorating the advent of civilization into this part of the Canadian west, a handsome cairn was unveiled near Fort Saskatchewan on Monday, with an impressive ceremony by Lieutenant-Governor Egbert. The inscription on the historic landmark is as follows:

"Fort Augustus.
Fort Edmonton.

"On the river flat below stood Fort Augustus, established by the North West Company in 1794; Fort Edmonton, established by the Hudson's Bay Company in 1795.

"Rivals in trade, allies in danger, these companies carried the flag and commerce of Britain by way of the great rivers from the shores of the Atlantic Ocean and Hudson Bay to the Pacific and Arctic Oceans.

"These posts were abandoned in 1807."

Speakers during the course of the ceremony included Judge F. W. Howay, of New Westminster, western representative of the historic sites and monuments board of the Dominion, which erected the cairn; Acting Premier Hon. R. G. Reid; Chief Factor James Thomson, of the Hudson's Bay Company, Winnipeg; A. H. Gibson, Fort Saskatchewan, and Hon. Dr. A. C. Rutherford, first premier of the province.

Miss Jeannette Thibodeau has returned from a brief vacation trip.

WORLD HAPPENINGS
BRIEFLY TOLD

It A. McGregor, of the Vancouver Province, Vancouver, B.C., won the gold medal offered for the best editorial in Canadian daily newspapers dealing with Confederation, its purposes and achievements.

Investigation into the possibilities of Esperanto as an ideal language for world communication and for study in school curricula may be undertaken by the council of the World Federation of Education Associations.

Immigration to Canada during June amounted to 18,625, compared with 22,311 in the same month a year ago, an increase of 48 per cent. These figures are disclosed in a statement issued by the department of immigration.

Former Premier David Lloyd George has promised to visit the United States in 1923, to meet American Welshmen and preside at the International Eisteddfod, says a dispatch to The Westminster Gazette from Llangollen, Wales.

Rats have reached the Kootenai district in Saskatchewan, and appear to be increasing in numbers from the amount of damage reported. Some farmers have had young chicks killed by the rodents, and others have complained of damage done to grain bins.

Postal regulations have been summarized in a new booklet issued by the Post Office Department. It is a compendium of information on the many services of the post office. The public may obtain a copy of the same on application to the post office.

A movement to change the name of the Sons of England Benefit Society was defeated at the annual meeting at Ottawa of the organization. By a standing vote the delegates threw out the motion for the deletion of the word "benefit" from the society's title.

The United States will move forward immediately in a naval program described as moderate, it was decided by President Coolidge and Secretary Wilbur of the navy after surveying the consequences of the failure of the Geneva naval limitations conference.

Ontario Grain Pool

Membership Is Growing Rapidly and Organization Is On Sound Basis. J. O. Daley, grain accountant of the Manitoba Co-operative Wheat Producers Ltd., has returned from Toronto, where he assisted in the organization of the Ontario grain pool. Mr. Daley's work was the formation of a grain accounting system for the new body.

During his stay in Toronto the membership in the newly formed pool jumped from 7,500 to approximately 9,000, with new contracts coming in every day. The farmers of Ontario expressed enthusiasm with the formation of their pool and there was every indication that the organization would have a sound and steady growth, Mr. Daley said.

Only certain sections of the province had been organized as yet by the pool, but there was a strong demand from outside areas for pool representation also. "Everything points to a bumper pool year in the eastern provinces," Mr. Daley declared. "The pool is organized on a five-year contract basis for the handling of wheat, barley and oats."

Restrict Trapping Of Beaver

It has been announced by the Alberta Provincial Game Branch that no trapping of beaver in Alberta north of the township 19 will be permitted during the coming season, and that the closed season for beaver which has been enforced in this area for the past 20 years will continue for the coming fall and winter as the beaver supply in the province has been steadily growing less. South of the line of township 69 permits will be issued as usual in cases where found desirable through damage to farm property by local colonies of beaver.

Tribute To Modern Mechanics

On Long Island a man flew in a plane weighing only 290 pounds, at 70 miles an hour, with a 25-horsepower engine. A machine weighing a little more than a heavy man, developing the power of 23 horses, capable of going through the air at 70 miles an hour and carrying more than its own weight, is a tribute to our mechanical age.

Never stand on your dignity; there's nothing in the world so slippery.

A field ant has been known to hold in its jaws a weight 3,000 times heavier than itself.

Highland Musical Festival

100 Medals Offered As Prizes At Game Concert and Musical Festival At Banff

Under the patronage of His Royal Highness, the Prince of Wales, Canada will hold National Scottish Games and Music Festival at Banff in the Canadian Pacific Rockies, September 2 to 5.

The event is being planned on a most ambitious scale and promises to be a most elaborate affair. Each of the seventeen Highland regiments in Canada will send a pipe to compete for the trophy offered by Mr. E. W. Deaty, President of the Canadian Pacific Railway for the best regimental pipe in the Dominion.

Scottish music by folk-singers and famous Scottish Concert artists, will attend, among whom will be Davidson, Thomson, Ruth Matheson, J. Campbell McEneaney and Jeanne Dussan.

The Highland Tribes of Indians, in the Rockies will take part in the festival of song and dance. Their teepee encampment and gay native costumes will vie with the Highlanders of Scotland for attraction.

A very attractive booklet has been issued by the Canadian Pacific Railway in connection with the event copies of which are available on application to the ticket agent.

Viewed Mystery Seaplane

British Journalist and Photographers Given Peep At Aircraft

The heavy curtain of secrecy which for months has surrounded the closely guarded air station at Calthorpe, England, where seven British seaplanes are being tested for the Schneider cup race in Italy, September 25, was lifted cautiously for a while this morning. A party of British journalists and photographers was given a peep at the aircraft which it is hoped will bring the coveted cup to Britain, but American journalists, and those of other nationalities, were not allowed to view the plane. The results of speed tests are still kept a dark secret.

Reports were circulated around the vicinity of the airfield that the Napier S-5 had developed a speed of 312 miles an hour but these could not be verified.

Winnipeg Newspaper Union

Fashions

A Chic New Frack

Distinctly modish is this attractive frack having a group of platts at each side of the front and a plain back. In View A contrasting material or all-over lace is used for the vest and insets on the sleeves, and a long collar ties in a chic bow at the side. View B is shown fashioned of one material and has a short collar and loose sleeves with the insets omitted. No. 1613 is in size 36, 38, 40, 42 and 44 inches bust. Size 38 requires 3 1/2 yards. Size 44 requires 5 1/2 yards. A substantial shortage of food for the American people.

Every woman's desire is to achieve that smart different appearance which draws favorable comment from the observing public. The designs illustrated in our new Fashion Book are originated in the heart of the style centers and will help you to acquire that much desired air of individuality. Price of the Book 10 cents the copy.

FIRESTONE PLANT TO BE ENLARGED SHORTLY

Head Of Famous Tire Corporation Makes Announcement—Founder Of Industry With Son

One of the most important visitors to the City of Hamilton during Jubilee Week was Harvey S. Firestone, president and founder of the Firestone Tire & Rubber Company of Akron, Ohio, and also of the Firestone Tire & Rubber Company of Canada, Limited. Mr. Firestone was accompanied by his son Leonard, and Mr. Meyers, chief engineer for the company.

The visit marked the fifth anniversary of the start of manufacture of Firestone gun-dipped tires in Canada. Mr. Firestone declared that he was extremely impressed with the industrial growth of Hamilton, and of Canada generally, and with the progress of the Canadian Firestone company. As the Canadian Firestone was organized during rather trying times, he had not anticipated such rapid growth.

Says United States

Faces Grave Situation

Dr. Henry Taylor Quoting Survey Report Believes Farms At Low Ebb

Agriculture is at low ebb in the United States and a food shortage may come day follow a lean crop year if the trend continues, according to Dr. Henry C. Taylor, of the Institute for research of land economics of Northwestern university in a report made public.

The farmer's share of the national income in 1926 was 9.7 per cent, the lowest percentage since records have been kept; 31,000,000 acres of land went out of agricultural use between 1920 and 1925, and there were 44 farm bankruptcies for each working day during 1926, the report states. In support of the statement that the situation is "a menace to the continued prosperity of United States."

The 1926 figure of 9.7 per cent, is to be compared with 20.7 per cent, the average share of agriculture for the five years 1920 to 1925. The high mark for the period was 21.7 per cent, in 1910, and the lowest 20.2 per cent, in 1911, according to the report.

During the past five years, the average share has been 10.3 per cent, less than half what it was before the war.

The decline of agricultural prosperity has driven people from the land, Dr. Taylor declared.

"The farm population shrank by a matter of 2,000,000 persons between 1920 and 1925," he said, "while the population of the United States as a whole increased by 8,500,000. With the present rate of shrinkage of American agriculture we soon may reach the point in the United States where a poor crop year will mean a substantial shortage of food for the American people."

Wealth Of Alberta Oil Fields

Further proof of the wealth of the Alberta oil fields appears in the export of two strikes made recently in wells in the Turner Valley field, according to Provincial Government reports. At the Duhaime No. 5 well a heavy flow of crude oil gushing about 42 barrels is reported at a depth of 4,225 feet, while at the Regent well, production of crude oil (testing about 60 Beams) was reached at 2,365 feet.

Britannia For Princes

T. O. F. Horner, manager of the Canada Colonization Association, states that this organization has placed 400 Old Country families in the Prairie Provinces this year and that 800 other families will arrive before the end of the year.

A Valiant Knight

Wilfred T. Grenfell Wins His Spurs On Beak Labrador Coast

Newfoundland has had its knight—several of them and at different times. Now Labrador has one of its very own, and it is safe to say there is not a worthier one in the ranks of valour. In the good old days, it was the custom for knights to ride abroad redressing human wrong, succoring distressed damsels, seeking adventure and destroying tyrants. Names and with blanked shields they went until some exploit of arms gave them the right to show their escutcheons and proclaim their names.

Labrador's knight, however, has at ready won his spurs. The tyrants of disease and loneliness, and King Winter, the hardened despot of the north, he has been fighting for quarter of a century. Damsels without number he has rescued on the rock-bound Labrador coast and adventure he has had no need to seek, for it has met him at every turn. He has done wrong, presumably, he has rights too, for he has long been a magistrate, though "his friends say he knows no law. At any rate, he has ameliorated much human suffering and brought brightness into a myriad of lives. The King did honor the other day to the knightly Order of St. Michael and St. George when he enrolled Wilfred T. Grenfell among its members—Vancouver Province.

Not Worn Out Yet

The French scientist, Charles Nordmann estimates that the sun will continue to give the world its heat and light for 150,000,000,000 years. The calculation was made possible by the discovery of the contraction of the atom. This eliminates the old theory that the sun would burn out in 10,000,000 years at the most and reconciles geologists and astronomers, Professor Nordmann says.

Oil From Alberta

The total production of crude naphtha taken from the Hoyalite well and purchased from other wells in the Turner Valley field during the month of May, 1927, amounted to 22,535 barrels, according to figures published in the July issue of the Metallurgical Bulletin. This total is made up of 18,693 barrels produced by the Hoyalite No. 4 well, 757 barrels taken from Hoyalite wells Nos. 1, 2 and 3, and 3,285 barrels purchased from other producing wells.

Maltese dogs, the little white-haired animals so popular during Victorian days, no longer are found on their native island.

SUNDAY SCHOOL LESSON

AUGUST 31

GOD'S PROMISE TO DAVID

Golden Text.—Thy throne, O God, is for ever and ever; and the sceptre of uprightness is the sceptre of thy kingdom.—Hebrews 1:8.

Lesson: 1 Chronicles 17. Devotional Reading: Hebrews 1:8-12.

The Explanations and Comments

1. David Plans To Build A Temple. verses 1, 2.—When David was at peace with his enemies, he began to consider what next he could do for his kingdom. To Nathan, the prophet, he told the plan which he had probably long cherished. He himself was dwelling in a house of cedar, he said to Nathan, but the ark of God was housed under curtains, in a tent made from goat's hair. Compare Haggai's argument for rebuilding the temple, in Haggai 1:4. "David was an old man when he spoke these words, but old age had not chilled him as it so often does. It had not made him cynical nor selfish, as if there were nothing worth caring for but his own comfort. There is the ring of enthusiasm about his words, the note of resolve that nothing could be too splendid to be lavished on the house of the Lord of Israel."—E. H. Morrison.

David's plan seemed to Nathan good, and we told him to do all that he desired to do, for God was with him.

"The Lord demands my best. I will not keep the house of cedar and offer him the fragile tent. He shall have the best. He will offer him my best. He shall have the best of my time. So often I give him the fragment of the day, I give him the moments of weariness, the remnant of the hour when I am quite worn out. I keep the best for myself. Hereafter I would give him my brilliant moments, I would sacrifice the springs of the day to his glory. He shall have the best of my powers. I do so often put my whole self into my pleasures, and when I come to the moment of sacrifice it is not a whole burnt offering. Lord, 'take my all,' graciously incline me to consecrate my best!"—J. H. Jowett.

Germans Return To Military Splendor

Army Again Wearing Bright Buttons and Gold Lace

The German Reichswehr will soon blossom out in gay colors, bright buttons, gold lace and gaudy trimmings, according to a decree issued by the Defense Ministry ordering changes in uniforms. The military splendor of imperial days will not be restored by this act, but it is a big step toward transforming the drab folk grey soldier to something like his former glory in dress.

With other nations returning to the spectacular in army attire, the Fatherland felt its men suffered by contrast. Officers attending official duties were outshined by the uniformed diplomatic corps wearing braids and with chest covered with decorations.

However, the high stiff collar will not be abolished, despite numerous requests from the higher officers that Germany follow the British example. So far, the chiefs have held that ties are "unnilitary."

Surplus War Stock Sold

British Supplies On Sale Since Armistice—Are Finally Disposed Of

British war supplies, valued at nearly \$35,000,000, which have been on sale ever since the Armistice, have now been finally cleared up, Charles Lyle, Assistant Commercial Attaché at London, has informed the Department of Commerce at Washington. Everything was put up for sale, from packages of pins to a \$35,000 motor truck plant. Automobiles went most slowly of all. Poison gas cartridges and other forms of munitions were not sold but taken out to sea and dumped overboard. \$25,000,000 worth being disposed of in this manner. Among the items disposed of were thousands of miles of railway lines in Belgium, Greece and Palestine. The British Government sold its stock of pickled herrings, which were served to the Tommies as the "golden" was the American term. The War Liquidation Board sold 800,000 barrels of them at something over \$5 a barrel.

Not So Funny

"Moose Jaw, Medicine Hat—What you know whether you have given your cities here in Canada," remarked a fair visitor from across the border to her companion aboard a C.P.R. train. "Have we? Where do you live?" "Oshkosh," was the proud reply, and she's still wondering why every one within hearing laughed.

Heckened Husband

"Where is your mistress going for the winter?" "To Palm Beach, sir."

"Heckened Husband?" "Do you know whether she is taking me with her?"

There are two ways to buy a home on the installment plan. In one case you get a deed; in the other you get rent receipts.

Decrease In Butter Exports

Record Shows Alarming Drop In Last Twelve Months

Butter exports from Canada dropped alarmingly in the twelve months ended in June, 1927, as compared with the corresponding period a year ago. According to a bulletin prepared by the Department of Trade and Commerce, shipments of this commodity during the year just ended amounted to 97,732 cwt., as compared with 224,994 cwt. in the preceding year, a decrease of 127,172 cwt. Moreover, there was a similar decrease in the value of exports, which were registered at \$8,518,423 a year ago, as compared with \$9,331,466 in the twelve months ended June last.

Cheese exports during the same period on the other hand, compare very favorably with shipments in 1925-6. The commodity is, of course, the "poor man's butter," and during times of economy, consumption naturally increases. Canadian cheese makes butter, has an excellent reputation on the other side, and the agents there find it profitable to handle the product. The natural inference then is that more energetic measures should be taken to popularize Canadian butter in the United Kingdom, and by this means regain for Canada a market in which, at one time, she was the dominating influence.

South African Flag Question

Political Controversy Over the Design Of the Proposed New Flag

The violent political controversy over the design of the proposed new South African flag continues unabated, and the Hertog government's latest offer to the opposition is to enlarge the shield on the proposed flag. If that would bring about an agreement, this has been declined by General J. C. Smuts, leader of the South African party, who says the opposition does not regard the shield as a concession. The only possible solution, he says, is to include in the main design the flags which have figured in the history of South Africa.

"Our Natal friends," added General Smuts, "tell us that if they had known an effort would be made to pull down the Union Jack they would never have entered Union. Of course they would not. That is why I say so slowly."

The opposition leader counselled the people to vote against the government in the referendum on the proposed flag design and keep the question open with a view to having a really national flag by consent of all.

Cures Bovine Tuberculosis

Portland, Oregon, Veterinarian Demonstrates Efficiency Of His Discovery

Five months ago ten cows which had been infected with advanced tuberculosis and which had been condemned by United States herd inspectors were selected for a test of the supposed tuberculosis cure evolved by Dr. George Kirkpatrick, Portland veterinarian.

Recently three of the ten cows were slaughtered and subjected to a searching examination for traces of the disease. At the end of the examination the carcasses of all three were passed on by Dr. A. J. Blane, United States inspector, as free from the tuberculosis and fit for human consumption.

This was the outstanding development of the scientific clinic held at Portland as a climax to the official test sponsored by the city health bureau and other research agencies.

Final Shipment Of Buffalo

The final shipment of 218 buffalo left the Watnright Park recently, making a total of 1940 animals to be moved to the new state game preserve. Owing to the rapid increase in the number of buffalo in the park at Watnright, shipments to the preserve in three years have totalled 5,585 head, and of this number only six failed to stand the long trip by rail and water to their new domain.

Doing Well With Poverty

Soldier settlers were prominent exhibitors at the World's poultry Congress. A statement issued by Robert Work, minister in charge of the soldier settlement board, shows that no fewer than ten soldier settlers from the province of British Columbia alone exhibited at the congress. Some of the soldier settlers have proven very successful in the raising of poultry.

"My sorry, but I can't cure your husband's talking in his sleep."

BELLEVUE, ALBERTA

Master Dennis McAfferty, of Bellevue, has received notification from Toronto that he has tied with a Windsor, Ontario, girl for the highest marks in the Dominion in the introductory school violin examinations of the Toronto Conservatory of Music. Two medals will be awarded, one to the Bellevue girl, the other to the Windsor girl. Dennis is a pupil of J. Jasbee, of Hillcrest, under the supervision of Mr. W. H. Moser.

The man with ribs in his coat or buttons torn off should either get married or divorced.

Mrs. A. J. Kelly was the guest of her mother and sister at Pincher Creek during the week.

Mrs. Ernie Whiteside and daughter Bernice, of Strathmore, are spending a month at Vancouver.

The Junior Catholic Women's League are providing T 4 U at the Moose Hall on August 31st, from 3 to 5 p.m.

We had a call on Monday from Mrs. Rose Cailan, who was enroute from Cadomin to spend a vacation at Vancouver.

Mar Poy, so we learn, has sold out his restaurant business at Magrath. Mr. Poy is spending a few days in Blairmore.

Twenty years ago, a farmer at Stettler, Alberta, had a flying machine with wings thirty feet across on a fair way to completion.

A Bellevue Scotchman suggested that his marriage ceremony take place in the back yard, so the chickens would be able to get the rice.

Miss Louise Knapman arrived from Lethbridge the early part of the week, to enter upon a position in the general offices of the West Canadian Collieries.

The Fernie Devoys contemplate making the annual ceremonial on Labor Day the best ever. A torch light procession will be staged in the evening.
